Mission of the SBIR and STTR Programs

To support scientific excellence and technological innovation through the investment of Federal research funds in critical American priorities to build a strong national economy... one small business at a time

The SBIR & STTR Programs

Small Business Innovation Research (SBIR)

- A set-aside program for small business to engage in Federal R&D – with potential for commercialization
- For FY17, 3.2% of Federal agencies Extramural R&D budgets greater than \$100M per year

Small Business Technology Transfer (STTR)

- A sister set-aside program to facilitate cooperative R&D between small business concerns and U.S. research institutions – with potential for commercialization
- For FY17, 0.4% of the extramural research budget for all agencies with a budget greater than \$1B per year

Eligibility Requirements

Small Business Innovation Research (SBIR)

- 1 Organized for-profit U.S. business
- 2 At least 51% U.S. owned by individuals and independently operated
- 3 500 or fewer employees
- 4 Principal Investigator's primary employment with small business during project
- 5 Intellectual Property Agreement

Small Business Technology Transfer (STTR)

- 1 Formal Cooperative R&D Effort with a U.S. Research Institution
- 2 Minimum 40% by small business, 30% by U.S. Research Institution
- 3 Small business is Prime, Principal Investigator can be from Small Business Concern or Research Institution
- 4 Other SBIR Requirements Apply

11 Participating Federal Agencies

SBIR + STTR Programs

Department of
Defense (DoD)

Department of
Health and Human
Services (HHS)

Department of
Energy (DoE)

National Aeronautics
and Space
Administration (NASA)

National Science
Foundation (NSF)

SBIR Program only:

Department of
Agriculture
(USDA)

Department of
Education (DoEd)

Department of
Transportation (DoT)

Environmental
Protection
Agency (EPA)

Department of
Homeland Security
(DHS)

Department of
Commerce
(DoC)

11 Participating Federal Agencies

Agency SBIR Differences

Contracting Agencies

- Agency establishes plans, protocols, requirements
- Highly focused topics
- Procurement capability
- More fiscal requirements
- Contracting agencies
- Typically utilize agency personnel for review

Granting Agencies

- Investigator initiates approach
- Less-specified topics
- Assistance mechanism
- More flexibility
- Granting agencies
- Typically use external peer review
- Reviewers agree to keep application information confidential and certify that they don't have conflicts of interest

Program Background

- NASA's SBIR and STTR programs have awarded over \$3.3B to research-intensive American small businesses to date.
- Engineers and scientists from over 12,000 Firms in all 50 States, DC and Puerto Rico have participated
- On average each year 1,700 NASA scientists and engineers support the program performing technical reviews

Why Participate in SBIR/STTR?

1. Over \$2.25 Billion available every year
2. Funds are NOT A LOAN - no repayment - up to \$1.5M capital
3. Small businesses retain intellectual property rights
4. Provides seed money to fund high risk projects
5. Develop working relationship & credibility with government R&D
6. Fosters partnerships with large corporations and academia
7. Provides recognition and visibility for your business
8. Participation attracts venture capital and other funding sources

Structure of the Programs

Phase I: **Concept**

- Award Guideline: \$125K
- Duration: 6 months (SBIR)
12 months (STTR)

Phase II: **Full Research, R&D to Prototype**

- Award Guideline: \$750K
- Duration: 24 months
 - Phase II-E → 1:1 Matching up to \$375K (2016 Solicitation onwards)

Phase III: **Commercialization/Infusion**

- Non-SBIR/STTR funds
 - Contract from NASA program, other agency, prime contractor

2017 Solicitation

SBIR/STTR Program Solicitation

Nov. 17, 2016 - Jan. 20, 2017

Selections scheduled to be announced on April 17, 2017

2017 Solicitation - Noteworthy Changes

- **I-Corps**

In partnership with the National Science Foundation (NSF), NASA is offering the I-Corps program to educate selected teams on how to translate technologies from the laboratory into the market place.

I-Corps Step 2 Proposal Submission Period – April 20-27, 2017

<http://sbir.nasa.gov/content/I-Corps>

- **CCRPP**

Under NASA's new Civilian Commercialization Readiness Pilot Program (CCRPP), NASA will match the investments with SBIR/STTR program funds between \$125K-\$2M for each CCRPP award. The technology proposed for advancement toward commercialization should have a strong relevance to NASA's missions, as well as a strong potential use by NASA and/or markets outside of NASA beyond the CCRPP investment.

CCRPP Applications Submissions closed on March 31, 2017

<http://sbir.gsfc.nasa.gov/content/post-phase-ii-initiatives>

2017 Solicitation - Noteworthy Changes

- **Focus Areas**

The research subtopics are now organized by “Focus Areas” that group NASA interests and related technologies.

This change is intended to make it easier for proposers to understand related needs across the agency and thus identify subtopics where their R&D capabilities may be a good match.

<http://sbir.gsfc.nasa.gov/solicit-detail/58007>

2017 Focus Areas

1. In-Space Propulsion Technologies	12. Entry, Descent and Landing Systems
2. Power and Energy Storage	13. Information Technologies for Science Data
3. Autonomous Systems for Space Exploration	14. In-Space and Advanced Manufacturing
4. Robotic Systems for Space Exploration	15. Lightweight Materials, Structures, Assembly, and Construction
5. Communications and Navigation	16. Ground and Launch Processing
6. Life Support and Habitation Systems	17. Thermal Management Systems
7. Human Research and Health Maintenance	18. Air Vehicle Technology
8. In-Situ Resource Utilization	19. Integrated Flight Systems
9. Sensors, Detectors and Instruments	20. Airspace Operations and Safety
10. Advanced Telescope Technologies	21. Small Spacecraft Technologies
11. Spacecraft and Platform Systems	22. ISS Utilization and Microgravity Research

MARK YOUR CALENDARS!

Location: NASA Ames Research Center in Silicon Valley

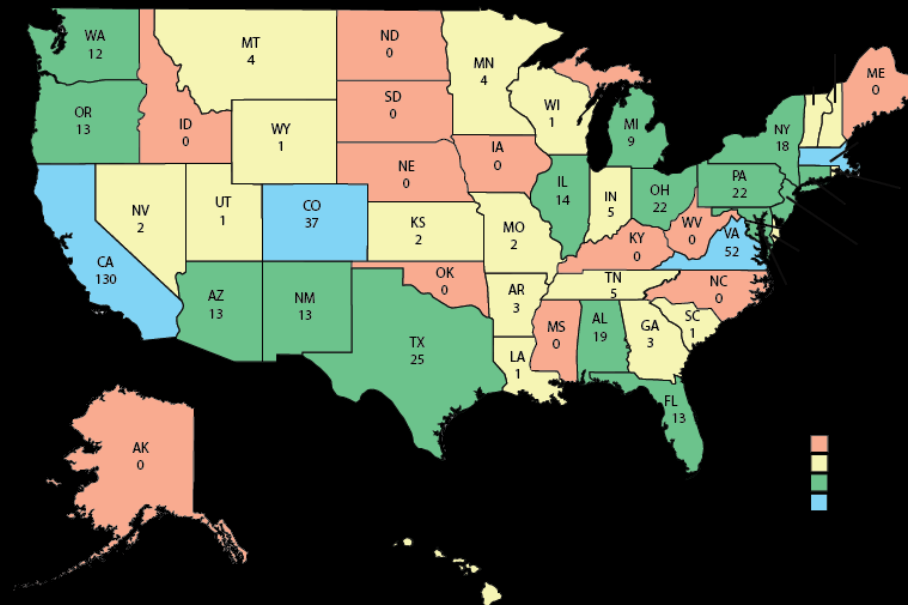

2016 At-A-Glance

Annual Award Budget FY16:

SBIR & STTR: approx. \$200M

- SBIR is 3.0% of R&D in FY16. In FY17, NASA will increase the SBIR investment to 3.2%.
- STTR is .45% of extramural R&D budget in FY16

FY 16 Awards At-A-Glance:

- SBIR Awards: 341 Phase I and 137 Phase II
- STTR Awards: 58 Phase I, 21 Phase II
