- **Impact/WIFM**: Contractors will have more information to assist them in complying with the requirement of making a good faith effort in meeting their subcontracting plan goals.
6) 2019-004, Good Faith in Small Business Subcontracting
7) 2019-003, Consolidation and Substantial Bundling

9) 2017-019, Policy on Joint Ventures

- **Case Status**: Final Rule

- **Next Steps**: DARC and CAAC Review

**Synopsis**: Implements regulatory changes regarding joint ventures made by the Small Business Administration (SBA) in their final rule published in the Federal Register on July 25, 2016 (81 FR 48558). Also clarifies that 8(a) joint ventures are not "certified" in the 8(a) Program and that 8(a) joint venture agreements must be approved by SBA prior to award of an 8(a) contract.

**Impact/WIFM**: Provide industry with a new way to compete for small business or socioeconomic set-asides using a joint venture made up of a mentor and a protégé. The 8(a) joint venture clarification prevents confusion on an 8(a) joint venture's eligibility to compete for an 8(a) competitive procurement.
9) 2017-019, Policy on Joint Ventures

**Synopsis:** Implements SBA's final rule (81 FR 34243) for section 1651 of the NDAA for FY 2013 (Pub. L. 112-239), which revised the limitations on subcontracting and the nonmanufacturer rule. Also implements SBA's regulatory clarifications concerning application of the limitations on subcontracting, nonmanufacturer rule, and size determination of joint ventures.

- **Impact/WIFM:** Shift of focus from percentage of work to be performed by prime to percentage of the award to be spent on subcontractors, lessens the burden of tracking/compliance. The percentage of the award spent on subcontractors who are similarly situated entities is not considered subcontracted for purposes of compliance.
10) 2016-011, Revision of Limitations on Subcontracting
